

Not Smoky City, Smoke Free City!

Let's make Pittsburgh a nicer place to live!

- Repeal state preemption of local tobacco control ordinances.
- Follow the lead of other states and cities and ban indoor public smoking.
- Enact effective measures to prevent children from becoming addicted.

You can help by becoming informed, contacting state and local officials, eating at the smoke free restaurants listed on our web site, using our table cards, posting flyers, spreading the word to your friends and neighbors, and helping us make our web site more useful and informative. Visit our site to learn more!
